HOLISTIC
WELLBEING

EKAA is a premier holistic healing institute dedicated to the science of healing with the subconscious mind. With over a decade of global presence, we empower individuals in their emotional, psychological, and physical well-being. Our approach combines the wisdom of Eastern traditions with the rigor of Western scientific evidence-based frameworks, making it profoundly transformative.

Our mission is to make holistic well-being accessible and available worldwide in every city by promoting education on the subconscious mind. We are committed to fostering authentic transformation of consciousness and emotional well-being through conscious living.

EKAA’s training programs are widely recognized and affiliated with reputed bodies across the globe. Some of our key affiliations include IMDHA (International Medical and Dental Hypnotherapy Association, USA), EARTH (Earth Association for Regression Therapy, Netherlands), IACH (International Association of Clinical Hypnotherapy), IPHM (International Professional Hypnotherapy Association), and IAOC (International Association of Counsellors).

KHDA

As the Headline Partner of the Holistic Healing Middle East (HHME), Dubai, EKAA is honoured to support a platform that celebrates the convergence of science, metaphysics, and integrative wellness.

Our participation reflects our commitment to advancing the field of holistic well-being on a global scale. Through our live demonstrations and expert panels, we aim to showcase the transformative power of the subconscious mind, engage with global thought leaders and wellness professionals, and inspire individuals to explore pathways through conscious living. We believe that the future of healthcare is integrative, and our role at HHME is to bridge traditional wisdom and modern science, emotional well-being, and the evolution of consciousness.

DR. YUVRAJ KAPADIA

OUR TRAINING PROGRAMS

- Certificate Program in Integrated Clinical Hypnotherapy
- Diploma in Transpersonal Regression Therapy
- Experiential Workshops for Groups and Organisations
- Systemic Constellations
- Customised Subconscious Mind Training for Individuals

Our certificate training programs emphasize experiential learning. Each concept is introduced with a clear theoretical explanation, followed by a live demonstration. Participants then engage in hands-on practice, taking turns in practitioner and client roles. Each practice session concludes with a debrief, allowing participants to reflect on their experiences and receive personalized feedback from the trainer. This immersive approach ensures a deep and practical understanding of each technique

CONSTELLATION SESSIONS
For Corporate / Individual

Everything in the world operates in a system, and every system is a sum total of the different parts that run it. A system becomes functional when it produces a favourable result and dysfunctional when the end product is undesirable. All of human life operates in a system—families, ancestral lines, corporate setups, educational institutions, social work groups, etc. Relationship issues, career blocks, financial difficulties, patterns of health and well-being, and disharmony in family systems are some specific scenarios that can be resolved through these sessions.

This is an experiential session in a group or individual setting explicitly offered to resolve a particular issue or pattern in your life. Our founder, Mr. Yuvraj M Kapadia, offers different types of sessions, including constellations with one person or groups of people, paper constellations, and constellations with puppets and dolls.

CUSTOMISED SUBCONSCIOUS MIND TRAINING
Offered by all EKAA Certified Practitioners for Individuals

EKAA Therapists and Trainers offer a focused training approach for the subconscious mind. It's custom-designed to benefit individuals from all walks of life, including corporate backgrounds and other fields. The process involves guiding individuals from presenting issues using the subconscious mind to revisit formative events.

By understanding these events, the practitioner helps individuals subjectively train their subconscious to respond more healthily. The outcome is a more integrated and healed personality, bringing out the best potential in the individual. This training benefits many areas, including emotional well-being, vitality, energy, psychological wellness, relationships, chronic ailments, and addictions.

Feel free to connect and discuss with our certified practitioners how this training can benefit a particular aspect of life.
